What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken Voltalia of France 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.

Is Albania a good place for solar energy?

The climate in Albania is Mediterranean, so it possesses considerable potential for solar energy production. Mountain elevations provide good areas for wind projects. There is also potentially usable geothermal energy because Albania has natural wells.
