

SolarInvert Energy Solutions

**Is the communication base
station inverter lightning-proof
and safe**

Overview

Can a TVS diode protect you from lightning & ESD?

Anything exposed to the outdoors, such as tower-mounted amplifiers, is prone to lightning strikes and ESD. A series fuse and a parallel TVS diode can work to protect against current overloads and absorb lightning or ESD transient strikes.

Why do baseband units need electrical protection?

Figure 6. Baseband Units need electrical protection at the power circuits, processors, and I/O lines. The BBU links the AAS and the wireline infrastructure, encoding transmissions and decoding received signals while processing data from calls and transmissions.

How do you support a base station when AC power is interrupted?

A backup battery (block 5) is one of the best ways to support the base station when AC power is interrupted. Support the base station by: Providing a fast-acting fuse on the battery circuit for overload protection. Monitoring battery temperature rise to ensure battery safety.

How do you support a base station?

Support the base station by: Providing a fast-acting fuse on the battery circuit for overload protection. Monitoring battery temperature rise to ensure battery safety. Placing surface mount thermistors on the battery pack modules. Protecting the battery pack modules from overcharging.

What does a base station do?

The base station is a fixed transceiver that acts as the primary transmission and reception communication hub for wireless devices. The base station modulates baseband information and transmits it to mobile devices. Base stations also receive mobile device transmissions, modulate them, and send them to the wireline infrastructure.

Is the communication base station inverter lightning-proof and safe

Lightning introduction pathways and protection measures for

When overhead pipelines are struck by lightning, overvoltage is introduced into the base station room, which is likely to burn out the communication equipment of the base station.
