Kazakhstan lithium battery power supply

Overview

Is Kazakhstan a good supplier of lithium?

Kazakhstan is positioning itself as a significant global supplier of high-quality lithium, essential for the burgeoning power-storage technology industry, as demand for the mineral continues to surge. Recent discoveries in eastern Kazakhstan have bolstered this position, although concrete investment commitments are still limited.

What is Kazakhstan's lithium potential?

Researchers from the Korea Institute of Geoscience and Mineral Resources revealed substantial lithium reserves in the Bakennoye deposit, signaling a potential value of up to \$15.7 billion. Plans for further drilling investigations are underway, indicating growing interest in Kazakhstan's lithium potential.

How much is Kazakhstan's new lithium deposit worth?

In March 2024, Korean Institute of Geoscience and Mineral Resources discovered a new lithium deposit with a grade of 5.3% in East Kazakhstan. It may be worth \$15.7 billion. Rare-earth metals (REM). Kazakhstan experienced a 4.6-fold increase in REM exports since 2020 in dollar terms, and a 3.8-fold increase in REM exports since 2020 in real terms.

How will Kazakhstan become a supplier of critical raw materials?

Kazakhstan plans to be not only a supplier of critical raw materials but also to become an integral part of the supply chain with certain production processes carried out in the country. This requires actively engaging the private sector – both domestic and foreign.

Why is Kazakhstan launching new EV exploration licences?

Kazakhstan aims to boost output of metals needed for electric vehicle (EV) batteries and is issuing hundreds of new exploration licences to attract fresh investment in the sector, the country's industry minister told Reuters.

What is Kazakhstan's share in the global copper market?

Kazakhstan's share in the global market of copper is almost 4%. In 2023, Kazakhstan had the 11th largest reserves in the world with 20 million tonnes. In 2022, top-3 destinations of Kazakhstan's exported copper were China, Turkey, and the UAE. Lead. Kazakhstan's share in the global market of lead is almost 3%.
