

SolarInvert Energy Solutions

Mongolian Energy Bureau Energy Storage Project

Overview

The project is aligned with the government medium and long term renewable energy target: (i) 100 MW of power storage installed to the CES to increase renewable energy power generation and reduce coal fired power generation in the Medium Term National Energy Policy (20182023) and (ii) renewable energy capacity increased to 20% of total generation capacity by 2023 and 30% by 2030 in the State Policy on Energy (20152030) and in Mongolia Nationally Determined Contribution in 2015.
