# Morocco pack battery

## Overview

---

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

Does Morocco have a lithium battery industry?

With the increasing demand for lithium batteries worldwide, the Moroccan government's initiative to attract investments in the lithium battery industry has gained significant traction. One of the latest developments in this sector is the investment by BTR New Material Group in Morocco.

Is Morocco a good country for battery production?

In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages. Industry estimates suggest that producing lithium batteries in Morocco offers a 36% cost advantage compared to other countries.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Can Morocco be a global leader in battery manufacturing?

By embracing the clean energy transition and positioning itself as a global leader in battery manufacturing, Morocco can drive economic growth, create jobs, and contribute to a more sustainable future for generations to come.

Does CATL have a battery production base in Morocco?

CATL has already planned over 100 GWh of production capacity at its European factories. Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger.
