## Overview

---

What is solarenergy jobs?

Solarenergy.jobs is a Midwest Solar Job Resource Center that serves as a marketplace connecting job seekers pursuing a career in the solar energy industry, with solar companies hiring in the industry. There are many pathways to get trained for a career in the solar industry.

How do I Manage my solar career online?

Manage your career online on SEIA's Solar Job Board. Use your account to save jobs, store resumes and cover letters, search for jobs, set up job alerts, and access career planning tools. The solar industry is growing rapidly, and we need an expanded skilled workforce to keep pace with this growth.

What jobs are available in the solar industry?

The solar industry has opportunities for everyone. SEIA's member companies will need a pipeline of trained workers across the spectrum of roles from project managers to engineers, salespeople, manufacturing technicians, installers, electricians, system designers, operations managers, executives, and a variety of business professionals.

Is the solar industry a good career choice?

The solar industry is one of the fastest-growing industries in the nation, and offers tremendous career opportunities for workers from all backgrounds. The solar industry is one of the fastest-growing industries in the nation, and offers tremendous career opportunities for workers from all backgrounds.

Do solar workers need a degree?

In fact, less than half of workers (only 43% as of 2023) hired into the solar industry work in a role that requires bachelor's degree.

Are solar apprenticeships a good tool for Workforce Development?

Apprenticeships are a time-tested and powerful tool for workforce development. SEIA developed this page as resource for solar employers looking to explore, develop, or participate in registered apprenticeship programs.
