

## SolarInvert Energy Solutions

# Solar Panel Agent

## Overview

---

In this complete 10-step guide, learn how to become a solar panel dealer, training courses and salary information.

Solar panel dealers typically get paid around 10-20% of the system's cost of installation. For example, if a solar panel system costs a customer \$30,000 to install.

A marketing plan can be extremely important for anyone who wants to become a solar panel distributor. Let's take a look at a few key points you need to include.

Solar panel dealers are people who help to sell solar panels. They work with customers to help them choose the right solar panel for their needs. Solar panel.

If you're considering selling solar panels, there are a few things you need to know. First, you'll need to offer free estimates to potential customers. Second, you.

As a solar sales representative, you help sell solar energy systems to residential and commercial customers. In this role, you may evaluate the suitability of each location for solar systems, help create estimates for costs and savings, and answer any questions that customers have.
