Overview

How much does electricity cost in Vietnam?

In May 2025, and Vietnam's average electricity price per kWh was set at VND 2,204.07 or about US \$0.084, excluding value-added tax (VAT), per Decision 599/QĐ-EVN. This was an increase from an average electricity price per kWh of VND 2,103.1159 or about US \$0.0836, excluding value-added tax (VAT), per Decision 2699/QĐ-BCT, from October 2024.

How are electricity prices regulated in Vietnam?

Electricity prices in Vietnam are regulated by the government and vary by sector, voltage level, time of day (normal, off-peak, peak), and geography. Businesses in industrial parks, service sectors, or using wholesale arrangements may face different pricing structures.

Why is electricity pricing important in Vietnam?

Electricity pricing has far-reaching implications, as energy accounts for approximately 15% of Vietnam's GDP. That makes MOIT's decisions central to the nation's economic planning and clean energy roadmap. *A Look Toward a Smarter Energy Future.*

Does EVN sell electricity in Vietnam?

Retail electricity prices in Vietnam are regulated and, though permitted, price rises are not all that common. This has led to EVN selling electricity below cost price — In January of 2024, it was losing as much as VND 142.5 per kilowatt-hour sold.

Who manages the electricity market in Vietnam?

The Ministry of Industry and Transport is the government body in charge of managing Vietnam's electricity market and supply. It does this through the wholly state-owned power company Electricity Vietnam commonly known as EVN. EVN generates some power, but also buys power from wholesalers, and

sells electricity to consumers.

What was Vietnam's Electricity price in 2025?

Vietnam's electricity price per kwh in 2025 was VND 2,103.1159 or about US \$0.0836 (from October 2024). Note that this is an average and that prices vary by user type.
