

## SolarInvert Energy Solutions

# When will Saudi Arabia build a hydrogen energy station

## Overview

---

**BAKU:** The world's largest green hydrogen plant, which is under construction in Saudi Arabia, is on-track to begin production in December 2026, the company's CEO told Arab News. NEOM Green Hydrogen Company is now 60 percent complete, according to CEO Wesam Al-Ghamdi. Does Saudi Arabia have a green hydrogen project?

Saudi Arabia's NEOM Green Hydrogen Project has reached 80% completion in its construction phase, according to Air Products, a US-based industrial gases company. This milestone covers all major components, including the green hydrogen facility, wind and solar power plants, and the transmission grid.

Is Saudi Arabia launching a green hydrogen hub in Yanbu?

**Haradh Gas Compression Project.** (Representational image) Saudi Arabia is ramping up its green hydrogen ambitions with a massive new facility planned in Yanbu. The Yanbu Green Hydrogen Hub, developed by ACWA Power in partnership with Germany's EnBW, is expected to be nearly twice the size of the ongoing 2.2 gigawatt Neom project.

How many tonnes of carbon-free hydrogen will Saudi Arabia produce a day?

It is expected to produce 600 tonnes of carbon-free hydrogen daily, starting in 2026. This venture is a collaboration between Saudi Arabia's ACWA Power, the U.S.-based Air Products, and NEOM, with a total investment of \$8.4 billion.

Will Saudi Arabia scale up hydrogen production?

Saudi Arabia's push to scale up hydrogen production aligns with broader regional goals. The Kingdom aims to invest up to \$270 billion in energy by 2030 and has set a target to supply 10% of the world's hydrogen exports.

Will Saudi Arabia become a green energy exporter?

With global demand for hydrogen expected to grow exponentially, Saudi Arabia's green hydrogen ambitions have far-reaching implications. The

Kingdom is not only seeking to meet its own energy needs through renewable sources but also to emerge as a major exporter of green energy, tapping into markets in Europe and Asia.

Is Saudi Arabia a global leader in hydrogen production?

Join us in Riyadh for the inaugural Hydrogen Arabia, a strategic conference that positions Saudi Arabia as a global leader in hydrogen production and a pioneer in the Circular Carbon Economy (CCE).
