

SolarInvert Energy Solutions

13007 Inverter power

Overview

Suppose you're making a project that operates on DC but suddenly you got the realization that you need an AC component for your circuit. May be an AC light or an AC motor. What would you do?

Now, you need.

13007 Inverter power

MJE13005

SWITCHMODE Series NPN Silicon Power Transistors These devices are designed for high-voltage, high-speed power switching inductive circuits where fall time is critical. They are ...
