

## SolarInvert Energy Solutions

# 18V lithium battery pack plus boost

## Overview

---

What does the Boost's battery pack do?

The Boost's battery pack extends the life and running time of your device. Plus, powering your device from an external battery pack will reduce the internal battery's charge cycles, extending the usable life.

What kind of battery does the boost plus use?

The Boost Plus uses an external 18650 battery that can be replaced by unscrewing the battery cap on the bottom of the device. It's the same battery cap we've seen on other Geekvape devices like the Aegis 100 and the Aegis Solo.

What is a M18 lithium XC battery?

The M18 REDLITHIUM 18-Volt Lithium-Ion XC 5.0 Ah Extended Capacity Battery from Milwaukee delivers exceptional run time, power and longevity. It features superb pack construction, electronics and performance to furnish more work per charge and more work over the life of the pack.

How much does a Bosch 18v battery weigh?

The battery has Bosch-exclusive CoolPack™ 2.0 technology, which cools the battery faster and helps provide longer lifetime compared to Bosch 18V batteries without CoolPack™ 2.0. Its cutting-edge battery design offers increased efficiency, and it weighs only 2.14 Lbs.

Does Bosch gal18v-160c work with 18V tools?

This battery is compatible with Bosch 18V tools and optimized to drive Bosch PROFACTOR™ tools with BITURBO Brushless™ Technology. It's compatible with Bosch 18V chargers and the AMPShare™ System. The air-cooled Bosch GAL18V-160C can fully charge a spent CORE18V® 8 Ah Lithium-ion battery in about 51 minutes in standard mode.

What is a battery booster?

It's a powerful battery booster that doubles as a portable power source for recharging USB devices, like a smartphone, tablet and more. Designed for a car, boat, RV, truck and more with gas engines up to 6 liters, and diesel engines up to 3 liters.
