

## SolarInvert Energy Solutions

# 20GW-class solar cells

## Overview

---

When will solar PV start & scale up to 20GW?

In its largest annual report, the firm said it is targeting to commission the first train of 20GW solar PV (photovoltaic) manufacturing by the end of 2024-25 fiscal (April 2024 to March 2025) and scale up to 20GW in a phased manner over 2026.

Will Reliance Industries install 20 GW of solar energy by 2025?

Diversified Indian conglomerate Reliance Industries (RIL) has targeted installing 20 GW of solar energy generation capacity by 2025.

How will solar power be scaled in FY27?

Next year, PV factory is to be scaled to 20GW in a phased manner, and a battery giga factory starting with a 50 MWh a year lithium battery cells pilot set up. In FY27, it plans to establish a cell-to-pack manufacturing facility of 50 GWh and will set up 100 GW of renewable energy capacity by 2030.
