

## SolarInvert Energy Solutions

# 220 electricity and 220v inverter conversion

## Overview

---

An inverter converts a 220 Volt DC voltage (battery) into an AC voltage (230V-50Hz). The standard output voltage is 230 Volt, 50Hz with a pure sine wave. This means that this inverter supplies the same type of voltage as the wall socket. This allows any electrical device to work on it.
