Are monocrystalline solar panels expensive?

Currently, monocrystalline panels are the most cost effective. While they are the most expensive, they are also the most efficient (which helps you save the most money). What are the three types of solar panels?

.

Are polycrystalline solar panels better than monocrystalline panels?

Polycrystalline panels were once popular but have been phased out for more efficient panels. Monocrystalline panels use a single silicone crystal, whereas polycrystalline panels use multiple crystals, which saves you money up front but doesn't perform as well.
