360W photovoltaic panel size

Overview

What is Panasonic 360W solar panel 120 cell evervolt evpv360pk?

Panasonic 360W Solar Panel 120 Cell EverVolt EVPV360PK provides a powerful combination of increased module efficiency, energy savings. Look into detailed descriptions, ratings, reviews, pictures at A1 SolarStore.

What is a 360 W Panasonic solar panel?

This 360 W Panasonic solar panel also comes with a generous 25-year product warranty. EVPV360PK design makes it ideal for residential and commercial rooftops. Strong 1.2" frame made from anodized aluminum increases durability and strength. The model can support a heavy snow load up to 7000 Pa.

What is gsp6g60m-360bt bifacial solar panel?

Each of the panel's 120 cells is only half the size of a traditional solar cell. This grants GSP6G60M-360BT lower resistive losses and better shade tolerance. As a result, the panel achieves an impressive efficiency of 19.76%. And while conventional panels use only one side to absorb photons, bifacial modules employ both sides at the same time.

Is Panasonic evpv360pk a good solar cell?

Panasonic made solar cells in EVPV360PK two times smaller than the standard size, thus reducing power loss and improving low-light behavior. At 19.7% efficiency, EVPV360PK offers surprising performance for its weight and size. Cell surface, back foil and frame are completely black, giving the model unrivaled aesthetics.

How much power does evpv360pk output?

Under standard test conditions, EVPV360PK outputs 360 W of power. The heat is less of a threat with this module: with one of the lowest temperature coefficients in the industry, EVPV360PK loses just 0.34% of efficiency for every

1.8°F above 77°F. Panasonic strict manufacturing standards include multiple tests to provide extreme quality assurance.

How does evpv360pk work?

EVPV360PK employs monocrystalline silicon — the most efficient material for converting sunlight into electricity. Each of the model's 120 solar cells consists of a single crystal, unlike cheaper polycrystalline cells that are made of multiple crystals melted together.
