

SolarInvert Energy Solutions

3kW rural household solar integrated machine

Overview

What is a 3KW solar power system?

3KW solar power system (off-the-grid, standalone) is the obvious alternative to one that is grid-tied. For homeowners that have access to the grid, off-grid solar systems are usually out of question. Here`s why:.

What is a 3KW off grid Solar System?

3KW Off Grid Solar System is a great option for people with average power use, living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available 25 years warranty with 80% power output PV Array Combiner Box SPD surge protection etc.

Is a 3KW Solar System a good choice?

Batteries are complicated, expensive and decrease overall system efficiency. 3KW Off Grid Solar System is a great option for people with average power use, living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available.

How much space does a 3 kilowatt solar system need?

This 3-kilowatt (kW) kit produces 200 to 550 kilowatt hours (kWh) alternating current (AC) power per month (assuming at least five sun hours per day with the solar array facing south) and requires just 184 square feet of space.
