

SolarInvert Energy Solutions

48v 12kW inverter

✓ TELECOM CABINET

✓ BRAND NEW ORIGINAL

✓ HIGH-EFFICIENCY

Overview

What is a 48 volt DC inverter charger?

Built with a 48 Volt DC input, these inverter chargers perform with very little power loss. Users receive a notable increase in efficiency in large systems when compared to using inverters that accept 12 or 24 volts. This can be an attractive feature for sustainability lovers looking to live as efficiently as possible.

What is the EG4 12kpv solar inverter/charger?

Easily integrate solar power into your current energy system or start a new one with the EG4 12kPV, our newest 48V split-phase hybrid inverter/charger. It utilizes up to 12kW of solar input, supplying up to 8kW for powering loads while using the remainder to charge your batteries.

What is a 12kpv hybrid inverter?

The 12kPV is more compact and affordable, and its modular design allows for easy expansion. Users can monitor and update the system remotely using the EG4 monitoring website/app for added control and flexibility. Integrate solar power seamlessly with the compact, affordable EG4 12kPV Hybrid Inverter for ultimate efficiency.

Can the EG4 18kpv inverter be used as a backup power system?

Utilize solar power directly, battery storage, and grid power simultaneously to power your home with up to 12,000W of uninterrupted, continuous output. And in case of a power outage, the EG4 18kPV Inverter can be used as a backup power system without solar.

What is a 48 volt DC split phase 240 volt AC inverter charger?

Our line of ETL listed to UL 48 Volt DC split phase 120/240 Volt AC inverter chargers is the power house for back up, off grid systems. Built with a 48 Volt DC input, these inverter chargers perform with very little power loss.

How much power does an EG4 solar inverter produce?

It utilizes up to 12kW of solar input, supplying up to 8kW for powering loads while using the remainder to charge your batteries. Designed for residential and light commercial applications, you can connect up to 10 units for a total power output of 80kW. The EG4 12kPV shares the same design and software as the flagship EG4 18kPV hybrid inverter.
