

SolarInvert Energy Solutions

545W photovoltaic panels factory direct sales

ESS

Overview

What is a 545 W CW energy solar panel?

This 545 W CW Energy solar panel also comes with a substantial 12-year product warranty. 545-144PMB10 is PID, salt, acid, and ammonia resistant. It can also bear mechanical loads of up to 5400 Pa on the front and 2400 Pa on the back. This durability is mostly owing to the 1.38" thick aluminum alloy frame and a layer of protective glass.

What is CW energy 545-144pmb10?

CW Energy made solar cells in 545-144PMB10 two times smaller than the standard size, thus reducing power loss and improving low-light behavior. At 21.1% efficiency, 545-144PMB10 offers surprising performance for its weight and size.

How efficient is 545-144pmb10 bifacial module?

At 21.1% efficiency, 545-144PMB10 offers surprising performance for its weight and size. And while conventional panels use only one side to absorb photons, bifacial modules employ both sides at the same time. Thanks to the technology, this model can be up to 30% more efficient.
