

SolarInvert Energy Solutions

6-series 24V lithium battery pack

Overview

What is a 24V lithium ion battery?

A 24V lithium ion battery is a type of rechargeable battery that provides power for various applications. Redodo's 24V lithium battery series is engineered to deliver dependable and uninterrupted power for marine excursions, solar arrays, home energy storage, and 24V trolling motors.

Where can I find 24V lithium batteries?

Search Newegg.com for 24v lithium batteries. Get fast shipping and top-rated customer service.

What is the Flex 24V stacked lithium battery platform?

The FLEX 24V Stacked Lithium Battery Platform offers industry-dominating power and performance. Its intelligent power management enables higher discharging, and it combines THERMA-TECH+™ cooling technology with high-performance heat management protection to offer faster charging and a longer battery life to power through the workday.

How long does a 24V lithium ion battery last?

Our 24V lithium ion battery can last up to 10 years with the right maintenance. It boasts over 4,000 cycles at 100% Depth of Discharge (DOD), and 15,000+ cycles at 60% DOD. The features of Redodo 24V LiFePO4 batteries include fast charging capabilities, superior deep discharge performance, lightweight design, and maintenance-free operation.

How long does a 24V LiFePO4 battery last?

With over 4000 cycles at 100% depth of discharge (DOD), these 24V lithium ion batteries can potentially provide up to 10 years of use. In addition, their LiFePO4 chemistry provides enhanced safety, significantly reducing the risk of thermal runaway compared to other 24V lithium battery types.

How many batteries can I connect to a redodo 24v battery?

Redodo allows users to connect up to four 24V lithium battery units in parallel or up to two batteries in series to create custom power setups.
