

SolarInvert Energy Solutions

ASEAN inverter 220v

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

Overview

What is primevolt solar inverter?

PrimeVOLT aims to create a sustainable green future with you by offering competitive inverter solutions. In response to the recent international market demand, PrimeVOLT has produced a series of photovoltaic grid-connected inverters, including 1-10kW single phase on-grid solar inverters, and 6-125kW three phase on-grid solar inverters.

Which inverter is best for ground-mounted PV power stations?

Among these, the three-phase inverter series is the best choice for ground-mounted PV power stations. Besides features including stable high performance, PrimeVOLT also won the “Taiwan Excellent PV Award” from the Ministry of Economic Affairs in 2021 and 2022. It is the first choice for solar power generation equipment.

Are primevolt inverters suitable for PV power stations?

PrimeVOLT inverters are suitable for PV power stations located at various locations, such as rooftops, as well as ground-mounted and floating applications. PrimeVOLT is your effective partner to achieve the highest value for your investment. The results for PV inverter shipments in the first half of 2021 have now been released.
