# Angola Outdoor Power Supply Monopoly

## Overview

---

How much does Angola spend on electricity?

The portion of the Angolan government budget dedicated to the electricity production, transmission and distribution sectors increased to US\$ 817.2 million in 2023 from US\$490 million in 2022. Angola's national budget for electricity assessment allocated is around US\$ 249.4 million.

What are the options for power generation in Angola?

Angola has numerous options for the generation of power. The present document considers the key options - hydro, thermal and new renewable- individually and combined in scenarios that meet the required levels of safety and redundancy.

Will Angola be a part of the southern African Power Pool?

Plans exist to link the grids through a north-central-south backbone and expand the grid from 3,354 km to 16,350 km by 2025. Angola is currently a non-operating member of the Southern African Power Pool, but plans exist to connect to the pool through Namibia and the Democratic Republic of Congo.

What can US companies do in Angola?

The tenders, the first of many to be released by the Angolan government and AfDB through 2024, could present new opportunities for U.S. companies to provide power sector goods and services in Angola, particularly in power transmission and distribution, while expanding Angolans' access to electricity.

Which countries supply power equipment to Angola?

In addition, European companies (Germany, Portugal) supply equipment to the energy sector. Portuguese, Brazilian, and Chinese construction companies generally lead in project construction. Electric power-related equipment (HTS 8411) exported to Angola in 2022, was valued at US\$ 14.8 million.

How much power does Angola need?

In order to ensure a safe power supply, even in years of lower hydro flow, Angola should have 9.9 GW of installed capacity – through increasing power capacity in all sub-systems and through a strong reliance on hydro and gas (which will correspond, respectively, to 66% and 19% of installed power capacity).
