

SolarInvert Energy Solutions

Argentina s first energy storage power stations

Overview

How much energy does Argentina need for a battery energy storage system?

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication.

What is Argentina's first energy storage tender?

(USD 1.0 = EUR~0.860) Loading. Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Can battery energy storage modernize Argentina's grid?

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

Can energy storage be a reliable source of energy?

As the opportunity to build energy storage as a reliable source in grids and to decarbonize becomes critical on a global stage, the oversubscribed tender launched by Argentina demonstrates the demand for scalable and bankable C&I energy storage systems projects, as well as the efficiency of collaborating with the government in their realization.
