

SolarInvert Energy Solutions

Australian battery energy storage supplier

Overview

Which battery energy storage systems are suitable for Australia's harshest conditions?

Our smartly designed, IP-rated battery energy storage systems (BESS) are adaptable, easy to transport and install, and suitable for Australia's harshest conditions. Designed to the highest standards, our units can be sized from 1MW to 200MW ensuring flexibility, modularity and redundancy at 11/22/33KV output voltages.

Which batteries are made in Australia?

Australia is a leading producer of batteries and energy storage solutions, with many of the biggest names in the industry based here. Two of the leading battery manufacturers in Australia are Zenaji & Redflow. Redflow specialise in producing innovative zinc-bromine flow batteries for residential and commercial applications.

What is a battery energy storage system?

Lithium-ion batteries are used to store electrical energy and can be recharged, while battery energy storage systems use a combination of technologies to store potential energy and provide a reliable source of electricity. A storage system incorporates the battery along with inverter/chargers for the control of the battery energy storage system.

Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.

Who are the best battery manufacturers in Australia?

Two of the leading battery manufacturers in Australia are Zenaji & Redflow. Redflow specialise in producing innovative zinc-bromine flow batteries for residential and commercial applications. Redflow's products are designed for long-term reliability and performance, making them a great choice for those seeking high-quality battery solutions.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across australia's national electricity market. The company, CitiPower and Powercor, empowers communities by providing them with choices on how to generate, store, use, and sell energy, supporting the transition to a clean energy future.
