Austria Telecom cooperates on 5G base stations

Overview

Who owns 5G in Austria?

Owned by German telecom group Deutsche Telekom, the newly formed telco launched commercial 5G services in March 2019 and expects to cover 50% of Austrian households with 5G technology by the end of 2021, a company spokesperson told RCR Wireless News. The telco ended last year with 1,200 5G sites nationwide, covering approximately 40% of households.

Which network has the largest 5G coverage in Austria?

Systemics-PAB in Austria, the network of A1 came on top with the largest 5G coverage in the country. All operators have very good coverage of 5G in Vienna and other major cities. Outside of major cities both A1 and Magenta have good 5G coverage. In our test A1 came out as the operator with the largest.

When will 5G be available in Austria?

Austrian operators hope to deploy 5G services at main traffic routes by the end of 2023 and have planned to have nearly nationwide 5G coverage by the end of 2025. With 5G networks deployed in 958 locations, according to Ookla's coverage map, Austrian operators were well on their way to accomplishing these goals.

Does A1 Telekom have 5G coverage in Austria?

In fact, when clicking through Ookla's 5G coverage map of Austria, it's noticeable how often A1 Telekom's commercially available networks pop up all over the country, including in Liezen, Rottenmann, Leoben, Murau, Fohnsdorf and Judenburg, just to name a few.

Can Austria become a 5G pioneer?

Austria's modest population of 8.9 million people has made it possible for the small country to become somewhat of a 5G pioneer, according to many accounts. Austrian operators hope to deploy 5G services at main traffic routes

by the end of 2023 and have planned to have nearly nationwide 5G coverage by the end of 2025.

When will T-Mobile Austria activate 5G?

Based on this spectrum, T-Mobile Austria activated the first 5G base stations in all of Austria on Tuesday, March 26, 2019, primarily in rural regions. Additional 5G stations will be integrated in the mobile network over the course of the further build-out.
