

SolarInvert Energy Solutions

Azerbaijan s outdoor energy storage policy

Overview

Does Azerbaijan need a battery energy storage system?

The efficient operation of renewable energy facilities, with their inherently intermittent power flows, is impossible without implementing a Battery Energy Storage System (BESS) in Azerbaijan.

What is Azerbaijan's energy policy?

As in many other producer countries, Azerbaijan's government has chosen to subsidise citizens and businesses by providing locost energy in the form ofw-oil, natural gas, electricity and district heat. This tariff policy leads to inefficient use of natural the resources that could (and should) be better used elsewhere.

Does Azerbaijan have a long-term energy strategy?

Azerbaijan has been working towards a long-term energy strategy for several years. As the oil and gas sector remains the backbone of the economy, the country has been looking to improve the efficiency with which it uses its energy resources.

Will Azerbaijan develop its first industrial-scale battery energy storage system?

He also highlighted that efforts are ongoing to select a company to develop Azerbaijan's first industrial-scale Battery Energy Storage System (BESS). In September of this year, Azerenergy announced a new tender for the development of a 250 MW Battery Energy Storage System (BESS) project, slated for completion by 2027.

What are the renewable resources of Azerbaijan?

With its excellent solar and wind resources and significant prospects for biomass, geothermal and hydropower, Azerbaijan has strong renewable energy potential . Practical deployment has been limited, however,

considering the scale of available resources and the country's long-term ambitions.

Does Azerbaijan have a gas policy?

In the case of Azerbaijan, it may be most useful to look at the policies introduced by other oil- and gas-producing countries. Europe's main gas producers are the Netherlands, Norway and the United Kingdom (UK), and all have policies to support the growth of renewable electricity.
