

SolarInvert Energy Solutions

Base station solar equipment prices

Overview

The typical cost of a solar base station can range from \$10,000 to over \$300,000, based on various design, capacity, and component quality factors. Where can I get help with my ground-mounted commercial solar system?

Contact us toll-free at (877) 297-0014 and someone will be happy to help you with all aspects of the design, system cost and rebate incentives for ground-mounted commercial solar systems.

How much does a base battery cost?

Based on when members signed up for Base, they may be on an older version of pricing that is broken down differently. Single Battery System: \$695 (First year membership of \$225/year is waived) Dual Battery System: \$995 (First year membership of \$345/year is waived).

How do I pay for a battery installation?

You must pay the installation cost fully, on the day of your battery install. The card you provided for the \$50 deposit will be charged. To find out the utility delivery fees for you, navigate to basepowercompany.com/efl and select the plan for your utility. You can see Base's latest plans and Electricity Facts Labels (EFLs) [here](#).

Base station solar equipment prices

How much does Base cost? How much do I pay for energy?

To get started with Base, you pay a \$50 refundable deposit upfront. This deposit applies toward your one-time installation cost once your battery is installed, and is refundable until your home ...
