

SolarInvert Energy Solutions

Battery cabinet and distribution cabinet installation site

Overview

Where is the battery cabinet located?

The battery cabinet may be located to either the right or left of the UPS cabinet. The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 21.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet as viewed from the front of the cabinet. See Figure 3 for line-up-and-match configuration views. Figure 3. Eaton 93PM 100 kW UPS and Two 93PM Integrated Battery Cabinets.

Where is the UPS battery cabinet located?

The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 21. If line-up-and-match installation, remove the rectangular knockout on the bottom front side of the UPS and the IBC (see Figure 15).

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

Where can a battery be installed?

Batteries can be installed on pull-out drawers or fixed shelves. We are pioneers in power electronics industry. Eram Power Electronics Company is a leading global power electronics manufacturer having worldwide operations with production facilities in Saudi Arabia and India for last 26 years.

Can a battery cabinet be installed indoors?

The system must be installed in a temperature and humidity controlled indoor area free of conductive contaminants. Failure to follow guidelines may void your warranty. • The battery cabinet is rated for operation in up to a 40°C (104°F) ambient temperature.
