Battery energy storage power station project halted

Overview

Will Addis rescind plans for a 600 megawatt lithium-ion battery storage facility?

Earlier this week, Addis called on Vistra Energy to rescind its plan for a 600 megawatt lithium-ion battery energy storage facility at Morro Bay, located at the decommissioned Morro Bay Power Plant. The Texas-based energy company has owned the facility since 2017.

Is Vistra withdrawing its application for a battery energy storage system?

This article was first seen on KSBY. Vistra is withdrawing its application for a proposed battery energy storage system (BESS) facility at the old Morro Bay power plant. The company informed the City of Morro Bay of its decision in a letter dated April 4.

Will California remove battery energy storage facilities from opt-in certification?

"It will remove battery energy storage facilities from California Energy Commission's opt-in certification program, which will return the authority to decide whether to allow these facilities back where it belongs, back into the hands of local communities," Addis said.
