

## SolarInvert Energy Solutions

# Belgian energy storage solar power generation company

## Overview

---

Where is the largest battery storage project in Belgium?

Eneco has launched Belgium's largest battery storage project in Ville-sur-Haine, Wallonia, near Mons and about 20 kilometers from the French border. The facility features a storage capacity of 200 MWh and a power output of 50 MW, capable of supplying electricity to the high-voltage grid for up to four hours.

How much power will Belgium's new solar park have?

The completed park will have a power capacity of 700 MW and a storage capacity of 2,800 MWh, enough to power 385,000 households for a year, according to Sweco. The facility will provide stored renewable energy during periods of low solar and wind energy production, reducing Belgium's reliance on gas power plants.

What is Giga storage Belgium?

GIGA Storage Belgium develops and deploys large-scale energy storage projects within the Belgian energy network. The facility will provide stored renewable energy during periods of low solar and wind energy production, reducing Belgium's reliance on gas power plants.

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

What does the new funding mean for battery storage in Belgium?

This new funding will be used to accelerate operations in Belgium, make further investments in battery storage at customer sites, and fulfill both its Belgian and European ambitions as part of the energy transition.

## Why did Sweco choose Giga storage Belgium?

Sweco has been selected as our partner for the integral design because of their solid expertise in battery energy storage systems (BESS)," said Joeri Siborgs, General Manager of GIGA Storage Belgium. GIGA Storage Belgium develops and deploys large-scale energy storage projects within the Belgian energy network.
