

## SolarInvert Energy Solutions

# Belize Communications Green Base Station

## Overview

---

• : +501 • : 00 • Main lines: 25,400 lines in use, 180th in the world (2012). • Mobile cellular: 164,200 lines, 184th in the world (2012).

What telecommunications are available in Belize?

Telecommunications in Belize include radio, television, fixed and mobile telephones, and the Internet. Radio stations: ~25 radio stations broadcasting on roughly 50 different frequencies (2007); state-run radio was privatized in 1998.

How many satellite earth stations are there in Belize?

Satellite earth stations: 8 (2 Intelsat, 6 unknown) (2011). Top-level domain: .bz, administered by the Belize Network Information Center at the University of Belize. Internet users: 81,930 users, 171st in the world; 25.0% of the population, 138th in the world (2012).

What is a green base station solution?

The green base station solution involves base station system architecture, base station form, power saving technologies, and application of green technologies. Using SDR-based architecture and distributed base stations is a different approach to traditional multiband multimode network construction.

Does Belize have a newspaper?

Belize is unusual in that it does not have a daily newspaper. Newspapers are produced weekly and most have been financially supported by one or other of the political parties, so expect a biased view when you read them. Radio and TV stations are privately owned.

Are there TV channels in Belize?

There are several television channels available which broadcast a wide range of programmes. There are some made in Belize and some from neighbouring countries such as Mexico, although there is a great deal of programming brought in from the United States and the UK.

What internet service providers are there in Belize?

Internet Service Providers: There are several ISPs in Belize: BTL, Speed Net, and others. [citation needed] There are few government restrictions on access to the Internet and no credible reports that the government monitors e-mail or Internet chat rooms without judicial oversight.
