

## SolarInvert Energy Solutions

# Benin Energy Storage Products Company

## Overview

---

Where can I store oil & gas in Benin?

Storage terminal: We own one of the four oil and gas storage terminals in Benin, and by far the busiest, with access to a private deep water jetty that allows large vessels of up to 180 metres and 30,000 MT to berth. We began our presence in the country with the construction of this terminal in the coastal capital of Cotonou.

Where do we ship oil to Benin?

We began our presence in the country with the construction of this terminal in the coastal capital of Cotonou. Since this modern facility opened in 1999, it has managed the transit of oil products not only to Benin, but also to customers in surrounding seaborne and landlocked countries, including Niger, Burkina Faso, Mali and Togo.

What type of energy is used in Benin?

Like for most countries in Sub-Saharan Africa, Benin's energy sector is largely dominated by the use of biomass-based energy sources (59.4%) (Tableau de Bord de l'Energie au Bénin, 2005), followed by petroleum products (38.4%) and, to a lesser degree, electricity (2.2%).

Why should we invest in Benin?

We also leverage Benin's strategic position as a commercial hub to serve the energy needs of neighbouring countries, including Burkina Faso, Mali, Niger and Togo.

Where does Benin sell its products?

Benin sells its products mainly to France and, in smaller quantities, to the Netherlands, Korea, Japan, and India. France is Benin's leading source for imports. Benin is also a member of the Economic Community of West African States (ECOWAS).

## What is Benin Oil Terminal?

Since this modern facility opened in 1999, it has managed the transit of oil products not only to Benin, but also to customers in surrounding seaborne and landlocked countries, including Niger, Burkina Faso, Mali and Togo. The terminal enjoys a strong reputation as an efficient and customer-friendly service provider 24 hours a day.
