Bolivia pack lithium battery factory

Overview

Will CATL build a lithium plant in Bolivia?

The Chinese battery giant CATL plans to invest €1.27 billion to develop Bolivia's large but largely untapped lithium deposits. And CATL has the backing of the Bolivian government to build two plants to extract lithium from brine.

Will Bolivia build a lithium battery plant in China?

La Paz (AFP) – Bolivia said Tuesday it had signed a \$1 billion deal with China's CBC, a subsidiary of the world's largest lithium battery producer CATL, to build two lithium carbonate production plants in the country's southwest.

What's going on with Bolivia's largely untapped lithium reserves?

Sources In a significant move towards the development of Bolivia's largely untapped lithium reserves, Chinese battery giant CATL has confirmed a \$1.4 billion investment. The deal, which was cemented on Sunday, is a continuation of a partnership with the Bolivian government that was established in January.

Will Bolivia build a lithium plant in the salt flats?

The agreement focuses on Bolivia's salt flats, known for their vast lithium resources. Bolivian President Luis Arce confirmed the plan to build two lithium plants in the country's Uyuni and Oruro salt flats after meeting with CATL executives. He announced a \$1.4 billion investment and hinted at possible future investments up to 2028.

Where will Bolivian lithium be processed?

At present, it is unknown in which CATL plants the Bolivian lithium will be processed – for example, in China or North America. In October 2019, Bolivia's government stopped a joint venture for lithium extraction with the German company ACI Systems Alemania (ACISA) by decree.

Does Bolivia have a lithium industry?

The development of Bolivia's lithium industry holds promise but faces challenges. The extraction and production of lithium have proven complex, leading to less lucrative outcomes for local communities. The Bolivian government seeks to build partnerships with foreign companies to develop technology and boost lithium production.
