

## SolarInvert Energy Solutions

# Bolivia s new battery cabinet custom factory

## Overview

---

Does Bolivia have a lithium plant?

This follows a deal between Bolivia's state-run lithium company, Yacimientos del Litio Bolivianos (YLB), and a Chinese consortium. CATL agreed to invest over \$1 billion in the project's first stage for rights to develop the two lithium plants. Despite being a global leader in electric vehicle batteries, CATL does not currently produce any lithium.

Why did CATL invest \$1.4 billion in Bolivia?

Chinese battery giant CATL, a global leader in electric vehicle batteries, has confirmed a \$1.4 billion investment. This investment aims to develop Bolivia's untapped lithium reserves and marks a new phase in the CATL-Bolivia partnership. The agreement focuses on Bolivia's salt flats, known for their vast lithium resources.

What's going on with Bolivia's largely untapped lithium reserves?

Sources In a significant move towards the development of Bolivia's largely untapped lithium reserves, Chinese battery giant CATL has confirmed a \$1.4 billion investment. The deal, which was cemented on Sunday, is a continuation of a partnership with the Bolivian government that was established in January.

Will Bolivia build a lithium plant in the salt flats?

The agreement focuses on Bolivia's salt flats, known for their vast lithium resources. Bolivian President Luis Arce confirmed the plan to build two lithium plants in the country's Uyuni and Oruro salt flats after meeting with CATL executives. He announced a \$1.4 billion investment and hinted at possible future investments up to 2028.

Can Bolivia become a global powerhouse in electric micro-mobility?

MOBI CEO Ariel Revollo: "Latin America has the capacity to become a global

powerhouse in electric micro-mobility, and we believe Bolivia can be the leader of this transition.

Can Bolivia become a green energy superpower?

The partnership between MOBI and EnergyX highlights the thriving innovation environment in Bolivia, and will take the country one step closer to becoming a green energy superpower.
