

SolarInvert Energy Solutions

British rechargeable battery cabinet manufacturer

Overview

What is a lithium-ion battery charging & storage cabinet?

lithium-ion battery charging and storage cabinet, fortified with ChargeGuard™ for ultimate protection. This state-of-the-art cabinet features multiple layers of advanced shielding, specifically designed to reduce the risks of battery fires and thermal runaway.

What is a lithium battery en cabinet?

Lithium battery EN cabinet is equipped with the latest safety technology to ensure compliance with norms and full protection to personnel and property against the potential hazards of storing, handling and charging of Lithium-ion batteries. FREE UK Mainland delivery 4-6 weeks (excluding Highlands & Islands).

What is a battery storage cabinet?

Battery storage cabinet, largest unit available in FMplus range, ideal for storing small lithium batteries as used in devices such as power tools. Sturdy unit is manufactured with heat-insulating, double walled steel, and features a lockable door with three-point lock. FREE UK mainland delivery 6-7 weeks (excluding Highlands & Islands).

Who makes custom NiMH batteries & battery packs?

Custom NiMh Batteries and Battery Packs Designed and Assembled in the UK by PMBL can help those innovative Businesses who are looking for the optimum NiMH battery solution for their new designs and products. For over 20 years. Please note that PMBL only supply batteries on a business to business basis and at commercial production volumes.

What are the best lithium battery storage cabinets?

Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage. Built with

advanced fire protection, our products include 60- and 90-minute fire-rated cabinets tested up to 105 minutes to meet EN14470-1 standards, ensuring your batteries are safe even under extreme conditions.

Where are PMBL batteries made?

PMBL Ltd., located in Chard, Somerset, UK, is a leading manufacturer of custom battery packs, including lithium-ion, lithium-polymer, NiMH, alkaline, and lead-acid options. They serve industries such as electronics, medical equipment, oil and gas, and wearable technology.
