Bulgaria purchases outdoor solar integrated machine

Overview

Are solar panels a viable option for self-consumption in Bulgaria?

Conversely, households and institutions interested in installing solar panels for self-consumption are still stuck with administrative hurdles. In the statistics of the International Renewable Energy Agency (IRENA), Bulgaria had 1.28 GW at the end of 2021 and 1.95 GW just one year later. The measure is expressed in nominal or peak capacity.

How big is Bulgaria's solar power?

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The lineup in the list of the largest photovoltaic plants is changing almost every week as major facilities come online, and there is more in the pipeline.

Where is Galabovo solar BG located?

Galabovo Solar BG, another subsidiary of Santera Re, is operating a 201.4 MW (150 MW connection) photovoltaic park. But it should be noted that it also consists of three sites: in Obruchishte, Mednikarovo and Musachevo. The Galabovo municipality is in south-central Bulgaria, in the Stara Zagora province. The facility has just come online.

Who owns agrivoltaics in Apriltsi?

The company is controlled by businesswoman Ginka Varbakova. The facility is being built on municipal land in Pazardzhik, in the village of Aprilovo. Total investment is valued at EUR 255 million. The solar panels in Apriltsi are mounted at a height of more than two meters, allowing for agricultural production below (agrivoltaics or agrisolar).
