Cambodia Solar Mobile Company

Overview

Is solar energy a good investment in Cambodia?

According to the International Renewable Energy Agency (IREA), access to solar energy in Cambodia is 11 times higher than it was just a few years ago. Approximately one third of a million households, or 8.4% of overall Cambodia households, are benefiting from off-grid or micro-grid solar (Cambodia Socio-Economic Survey).

What is a solar power project in Cambodia?

Cambodia: Solar Power Project. efficiency of EDC and includes a grant component to the REF to finance service connection costs for poor households in the project provinces (para. 88). The project closing date is expected to be 31 December 2019. 128. The Rural Energy Project was funded by a \$6.1 million grant from the Government of Australia.

Is solar power transforming remote communities in Cambodia?

Solar power is transforming remote communities in Cambodia with affordable, renewable energy and the chance to live more productive lives\ . However, hundreds of other villages remain off the grid, and energy experts say Cambodia should be doing more to harness the country's immense amount of untapped sunlight.

Are solar power projects affecting Cambodia's energy mix?

Currently, solar power projects are contributing to less than 1% to the energy mix in Cambodia, but there are plans in place to expand on that. A 60MW solar-panel plant in Kampong Speu province went live in April this year, four months ahead of schedule. It sits in addition to a 10MW solar plant that is already connected to the grid.

Where are solar power plants located in Cambodia?

Currently, solar power plants providing a total of 160 mW are located in Bavet

city, Svay Rieng province, Kampong Speu province, and Kampong Chhnang province. Cambodia's existing solar power stations are already generating energy and linked to the grids.

How much does solar power cost in Cambodia?

The first phase of Cambodia's national solar power project, for 60 MW, was opened to private sector bidding and resulted in the lowest procurement price for grid-connected solar power in all of ASEAN, at 3.89 USD cents/KWh, Gill said.
