

## SolarInvert Energy Solutions

# Canadian anti-corrosion photovoltaic panel manufacturer

## Overview

---

Who makes Canadian solar panels?

Headquartered in Ontario, Canadian Solar Inc. is one of the leading solar manufacturers in Canada. Founded in 2001, the company has successfully delivered over 52 GW of solar modules to customers worldwide. Known for its high-quality solar panels, Canadian Solar Inc. offers a variety of products, from standard solar panels to smart DC modules.

Who is Canadian Solar?

Company Overview: Canadian Solar Inc., founded in 2001 by Dr. Shawn Qu in Guelph, Ontario, is a leading global provider of solar energy solutions. The company specializes in the design, manufacturing, and development of solar photovoltaic (PV) modules, battery energy storage systems, and utility-scale solar projects.

Are Canadian solar panels good?

YES! For 2025, SolarReviews has named Canadian Solar #1 on our list of the best solar panels. The company offers excellent products and has a long history of success and big plans for the future. Based on product quality and the company's longevity and stability, SolarReviews highly recommends Canadian Solar panels.

Is Ontario a good place to install solar panels?

Ontario has been at the forefront of the solar energy revolution in Canada. With the highest number of solar installations and the most significant amount of solar capacity, it's no surprise that Ontario is home to some of the largest solar panel manufacturers, such as Canadian Solar Inc and Heliene Inc.

Are Panasonic solar panels good in Canada?

Panasonic has been in the electronics industry for over a century, with its solar division delivering high-quality solar solutions. In Canada, Panasonic provides

top-quality solar panels in Canada known for their efficiency and durability. With their HIT® technology, Panasonic offers high-efficiency panels, especially in high temperatures.

Where are Canadian solar modules made?

Canadian Solar Incorporated is one of the five largest solar module manufacturers in the world; as of late 2023, they had plans for an annual production capacity of over 60 GW. The company's corporate headquarters is located in Guelph, Ontario, and it maintains a 500 MW manufacturing facility in Canada.
