# **Cape Verde Communications Green Base Station Contracting**

## Overview

---

The project relates to the promoter's investment plan to support Cape Verde's strategic objective to become a digital hub in the West Africa region. In line with this objective, the promoter will invest in a new connection to a latest generation submarine cable.

The project relates to the deployment of new submarine cables, as well as investments in information systems modernisation, which.

The projects to be financed through the Framework Loan relate to the construction of a branch between a new submarine cable set to link.

As part of the EU's Global Gateway strategy, EIB Global is supporting this project, which is expected to upgrade and enhance the existing digital infrastructure enabling.

The Bank will require the promoter to ensure that implementation of the project will be done in accordance with the Bank's Guide to Procurement.
