Cape Verde Mobile s 5G communication signal tower base station

Overview

What telecommunications services are available in Cabo Verde?

The two main telecommunications providers in Cabo Verde are Alou (formerly CV Móvel) and Unitel T+. They offer excellent coverage across the islands, ensuring that travellers can enjoy quality internet connections, even in the more distant locations. Internet access can be obtained via mobile data, Wi-Fi, and fixed broadband.

Does Cape Verde have a commercial network?

a commercial network. The environment: Cape Verde is a country committed to environmental issues, having created legal mechanisms to protect and defend the environment, following international recommendations and best practices. For this reason, solutions must also consider components and evidence of enviro.

What frequency does Unitel t+ Cape Verde use?

Unitel T+ Cape Verde uses the GSM 900 MHz (E-GSM) frequency band. This deployment is part of the GSM standard, which operates in the 890 to 915 MHz range for mobile-to-base station transmissions and the 935 to 960 MHz range for base-to-mobile station transmissions.

Do you need a SIM card in Cape Verde?

It's often more economical to use a local SIM card for your communication needs while in Cape Verde. Purchasing a SIM Card: It's advisable to buy a SIM card upon arrival at the airport to save time and ensure connectivity immediately. Regular Top-ups: Keep your mobile phone topped up to avoid interruptions, especially if you plan day trips.

What is the Cape Verde Digital Governance Project?

t, Digital Governance. The Project will support the Government of Cape Verde (GoCV) in its recent efforts to support activities aimed at increasing its

capacity to better develop the digital governance plan, in a context of providing clear indications for infrastructure connectivity, notably in the development of a roadmap to implement the 5G sy.

How much does a SIM card cost in Cabo Verde?

Communication services are primarily provided by two major companies: Cabo Verde Telecom and Unitel T+. Both offer landline and mobile services with good coverage in most populated areas. The cost for a SIM card is approximately 100 Escudos (about €1), making it an affordable option for staying connected.
