## Overview

---

Where can I find information about energy access in Chad?

Find relevant information for Chad on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage. (Sustainable Development Goal indicators 7.1 energy access, 7.2 on renewable energy and 7.3 on energy efficiency).

What is the Chad Power Sector?

The Chad power sector institutional, legal and regulatory framework is being developed. The Ministry of Energy (MoE) oversees the energy sector, including planning, policy formulation and implementation, and sector monitoring and evaluation.

What is Chad energy access scale up project?

To proposed Chad Energy Access Scale Up Project will complement the ongoing activities and accelerate access in secondary cities via mini-grids and in rural areas – via SSS.

Is Chad a global outlier?

Chad is a global outlier in terms of energy services, with among the lowest access rates in the world, limited power supply, and very high costs for those households that rely on liquid fuels for energy services.

Does Chad have a good electricity supply?

Despite the endowment of fossil fuels and solar resources, Chad has among the lowest rates of access to electricity in the world at 6.4 percent (against an Sub-Saharan Africa (SSA) average of 48 percent), with significant disparities between urban and rural areas (20 percent urban, 0.6 percent rural)<sup>4</sup>.

How much does electricity cost in Chad?

In addition, the cost of electricity service is extraordinarily high in Chad (US\$0.43/kWh billed), significantly exceeding the average tariff of US\$0.25/kWh. Even for customers with grid connections, unreliable services negatively impact livelihoods, firm productivity and growth potential.
