# China Communications 5G Base Station Subsidy

## Overview

---

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

Does China have a 5G base station?

Earlier this year, industry calculations indicated that China's 5G base stations -- the relay point between mobile phones and the larger internet -- accounted for more than 60 percent of the global total, highlighting the country's leading position in 5G deployment worldwide.

Why are 5G subscriptions growing so fast in China?

The rapid growth in 5G subscriptions has been supported by massive infrastructure development. MIIT figures show China had deployed about 4.2 million 5G base stations by the end of last month.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

How much will China Mobile spend on 5G?

China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks. The operator, which ended Q1 with 983 million mobile subscribers, expects to spend 83.1 billion yuan (\$11.6 billion) on 5G networks this year.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.
