China Electronics Technology Group Corporation China Communications Base Station

Overview

China Electronics Technology Group Corporation (CETC; 中国电子科技集团公司; zhongguo dianzi keji jituan gongsi) is a established in 2002. Its fields include communications equipment, computers, electronic equipment, IT infrastructure, networks, software development, research services, investment and asset management for civilian and military.

Where is China Electronics Technology Group Corporation located?

China Electronics Technology Group Corporation was founded in March 2002 by the Minister of Information Industry. The company is located in Beijing, Shanghai, Tianjin, Guangdong, Sichuan, Shaanxi and 18 other provinces. [citation needed] CETC has been the intended recipient of several prosecuted acts of industrial espionage in the U.S.

Did CETC support China's military modernization efforts?

Following the 2023 Chinese balloon incident, the U.S. Commerce Department added CETC's 48 Research Institute to the Entity List for supporting "China's military modernization efforts, specifically the People's Liberation Army's (PLA) aerospace programs including airships and balloons."

Can a CETC surveillance system detect distributed frequency-hopping signals?

According to information from a CETC subsidiary that makes electronic components for the platforms, the CETC surveillance system can also detect distributed frequency-hopping signals, specifically the U.S. military data link JTIDS (Link-16).
