China Mobile increases base stations

Overview

China Mobile, the world's largest mobile carrier in terms of subscribers, has outlined plans to deploy 340,000 additional 5G base stations in 2025. With these new 5G deployments, China Mobile's total 5G base stations will reach nearly 2.8 million by the end of 2025. Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

How much will China Mobile spend on 5G?

China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks. The operator, which ended Q1 with 983 million mobile subscribers, expects to spend 83.1 billion yuan (\$11.6 billion) on 5G networks this year.

How many 5G base stations did Huawei secure?

Huawei is estimated to have secured 45,426 5G base stations worth an estimated 4.1 billion yuan (US\$574 million). Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations.

How did China Mobile perform in a year?

For the full year, China Mobile reported a five percent increase in net profit, reaching CNY138.4 billion, while operating revenue climbed 3.1 percent to CNY1 trillion. Service revenue grew three percent to CNY889.5 billion, and product sales saw a 3.8 percent increase to CNY151.3 billion.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.

What is China Mobile's revenue segment?

China Mobile now categorizes revenue into four segments: mobile, home broadband and smart home, enterprise, and new business. Mobile revenue saw a slight decline of 1.3 percent to CNY483.7 billion, while home broadband expanded 8.5 percent to CNY106.8 billion. Enterprise revenue increased by 8.8 percent to CNY209.1 billion.
