Congo Kinshasa outdoor power supply parameter configuration

Overview

What type of plug is required in Congo-Kinshasa?

In Congo-Kinshasa, the power plug sockets are of types C, D, and E. Therefore, you may need a power plug adapter to use devices with different plug types.

What is the standard voltage in Congo-Kinshasa?

In Congo-Kinshasa, the standard voltage is 220 V. You will need a voltage converter to use your electric appliances there, because the standard voltage in Congo-Kinshasa is higher (220 V) than in the United States (120 V). Using your appliances without a converter could cause damage.

What adapters can I use in Republic of the Congo?

There are many different types of adapters available on Amazon that can be used in Republic of the Congo. You can purchase a universal adapter that will fit most outlets in the world, or you can purchase a specific adapter for Republic of the Congo. → Find travel adapters on Amazon.

What are the main sources of energy in the Congo?

Hydropower: For which the Congo River is the main source, with an average flow rate 42,000 m³ /s. Biogas: Coming mainly from both plant and animal waste. Solar: The DRC has noticeably high solar radiation averaging 6 kWh/m² /day.

Does Congo have a potential for renewable power generation?

As mentioned earlier, the country possesses a significant potential for renewable power generation, which is illustrated further as follows :
Hydropower: For which the Congo River is the main source, with an average flow rate 42,000 m³ /s. Biogas: Coming mainly from both plant and animal waste.

Can I bring my hair dryer to Republic of the Congo?

If you would like to bring your hair dryer, hair straightener, curling iron, or any other electrical appliance with you while traveling to Republic of the Congo, make sure that it is compatible with Republic of the Congo outlets. If it is not, you will need to purchase a travel adapter for Republic of the Congo.
