Container power generation 1200 watts

Overview

How much power does a patriot power solar generator 1200 have?

The Patriot Power Solar Generator 1200 has 1,030 watt-hours (Wh) of stored power. And since battery capacity is what dictates how long you can run an appliance, the LiFePO4 battery inside the generator gives you enough power to run appliances like your fridge or freezer.

How long can a patriot power generator 1200 last?

The lithium-IRON battery in your Patriot Power Generator 1200 is reliable, powerful, and most importantly — safe. In fact, you can fully drain and recharge your Patriot Power Generator 1200 over 4,000 times. While retaining at least 80% of its capacity. That's 11 years of daily use. A 60% gain in the number of times that you can use your generator.

Does a patriot power generator 1200 overcharge?

Every Patriot Power Generator 1200 comes with smart tech that stops it from overcharging or discharging. So you can charge your solar generator and not have to worry about damaging it. It's also designed to handle sudden power surges and can protect itself if it gets too hot or too cold. Most of our competitors don't do THIS.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

How much does the exodus 1200 weigh?

☐Lightning-Fast Recharge☐ – Recharge from 0% to 80% in just 2 hours, so you're always ready for the next adventure or emergency. ☐Compact Yet

Powerful Design – Lightweight and portable, the Exodus 1200 weighs only 23 lbs, ideal for camping trips, road travel, or as a reliable backup at home.
