

## SolarInvert Energy Solutions

# Containerized power generation power

## Overview

---

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

What is a 40 ft containerized generator set?

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What is unified power genset?

Unified Power offers containerized generator sets with CHP and Emission control system. Leveraging the expertise acquired during several years of manufacturing CHP/ CCHP Modular containerized gas power solutions. With our genset containers offer optimal performance in various site conditions.

Why are containerized gensets important?

It also protects against theft and vandalism. Chinese manufacturers, exporters, and suppliers are major players in the global market for containerized gensets. With advanced engineering capabilities and

competitive pricing, China factories offer a wide range of models for different power capacities and fuel types.

Why do you need a pre-packaged generator?

Pre-packaged containers and enclosures can simplify and expedite installation time, provide sound attenuation and personnel protection inside buildings, and provide weather protection for outside installations. Unified Power offers containerized generator sets with CHP and Emission control system.
