

## SolarInvert Energy Solutions

# Cuba foreign trade photovoltaic module export cabinet

## Overview

---

Can You import your own photovoltaic systems to Cuba?

The opportunity is now possible, for well off individuals or with help from abroad, to import their own photovoltaic systems to Cuba.

Can a photovoltaic system be imported independently?

The document clarifies that the photovoltaic panels, the inverter, the support structures, electric boards, cabinets for parts and the grounding system can be imported independently from the photovoltaic system.

How much electricity does a Cuban House use?

With today's photovoltaic technologies, any Cuban house can in theory satisfy its own electricity needs, as well as that of neighboring residences. By the end of 2020, the average consumption of private clients in Cuba was 185 kilowatts/hour (kWh) per month: just over 2200 kWh per year.
