

SolarInvert Energy Solutions

Current solar panel industry

Overview

In Q1 2025, the residential segment installed 1,106 MWdc of solar capacity, declining 13% year-over-year and 4% quarter-over-quarter. High interest rates and economic uncertainty continued to suppress demand. What will drive the growth of solar PV panels industry?

Growing demand for renewables-based clean electricity coupled with government policies, tax rebates, and incentives to install solar panels is expected to drive the growth of solar PV panels industry in the coming years. Asia Pacific held the largest market share of over 54.0% in 2023.

What is the global solar panel market size?

Get a personalised briefing?

Have Questions?

The global Solar Panel Market size is expected to reach USD 387.2 Billion in 2034 registering a CAGR of 8.9%. Our report provides a comprehensive overview of the industry, including key players, market share, growth opportunities and more.

What drives the solar panel market growth?

The solar panel market growth is driven by the way the world is progressing towards the use of renewable energy, strong government decarbonization strategies, and mounting innovation in solar panel cost and efficiency.

What are the quarterly solar industry updates?

The quarterly solar industry updates often cover: Updates on related government programs and policies. An Updated Life Cycle Assessment of Utility-Scale Solar Photovoltaic Systems Installed in the United States, NREL Technical Report (2024) Energy and Carbon Payback Times for Modern U.S. Utility Photovoltaic Systems, NREL Fact Sheet (2024).

How will solar energy impact the commercial sector?

Increasing adoption of solar energy as a power source in corporate offices, hospitals, and hotels is expected to drive demand for solar PV panels in commercial sector with increased power demand in data centers and communication base stations.

What is the market share of solar PV panels in 2023?

Based on application, the industrial segment accounted for a dominant share of over 40.0% in solar PV panels sector in 2023. Companies in the commercial and industrial sectors are among the major consumers of solar photovoltaic panels owing to the large-scale demand for green energy.
