# Customized DC to AC inverter

## Overview

---

What is a DC to AC inverter?

The input voltage, output voltage, frequency and overall power handling depend on the design of the specific device or circuitry. An Uninterruptible Power Supply (UPS) is a typical example of a DC to AC inverter. It provides an alternate electric power supply for connected electronic equipment when the primary power source is not available.

How do I choose a DC to AC power inverter?

When choosing a DC to AC power inverter to run an air conditioner (AC) unit, the first thing you need to consider is the size of the air conditioner or the amount of BTU's or AMP's required to run it. All electronics have a power label that will list the running wattage and amp requirement, or with AC units, it might show BTU's.

How can I accelerate DC-AC power inverter design development?

Accelerate the development of your DC-AC power inverter designs with the MPLAB PowerSmart Development Suite, a user-friendly design ecosystem that eliminates the need to manually write DSP-specific code for dsPIC33 DSCs. Please visit the full parametric chart.

Why should you choose microchip a digital DC-AC inverter?

We are committed to partnering with you and making sure you have what you need to succeed. Microchip's digital DC-AC inverter solutions offer customization through software, a compact design, higher efficiency, reduced noise, and lower BoM cost.

Is Nova electric a DoD approved inverter?

The appearance of U.S. Department of Defense (DoD) visual information does not imply or constitute DoD endorsement. Nova Electric offers pure sinewave DC-AC inverters, power inverters & DC-AC inverter systems to suit any

commercial or military application.

Does Nova electric offer a pure sinewave DC-AC inverter?

Nova Electric offers a full array of rugged pure sinewave DC-AC inverter systems to suit any commercial, industrial, or military application, including those that require compliance to military environmental and electrical standards such as MIL-STD-810, MIL-S-901, MIL-STD-167, MIL-STD-1275, MIL-STD-461, and more.
