

## SolarInvert Energy Solutions

# Cyprus Energy Storage Battery Customization Company

## Overview

---

Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government / MECI. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission (EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

Is Cyprus facing a unique set of energy challenges?

In a keynote address to open a conference on energy storage and hydrogen in March, George Papanastasiou of the Ministry of Energy, Commerce and Industry (MECI) noted that Cyprus faces a "unique set of energy challenges, which require tailored solutions."

Can Cyprus become an energy hub?

The strategy is built on three pillars aimed at transforming Cyprus into an energy hub. The first pillar is the rapid establishment of a liquefied natural gas (LNG) import terminal for power generation.

Does Cyprus have a 'silent killer' hypertension campaign?

Cyprus launches national campaign to combat 'silent killer' hypertension  
Hypertension affects nearly 30% of Cypriot adults. Newsroom 22/05/2025 |
